End of Sale Statement

June 2019

Barrett Communications is announcing the end of sale of the 10 metres GMDSS High power whip 2-30 MHz - 500W/1KW with integral base mount (P/N BC91708) with the following rationale and way forward.

The 10 metre GMDSS High power whip with integral base mount (P/N BC91708) has been superceded by the 10 metre GMDSS High power whip with Base mount and side feed point (P/N BC91713) which is designed for improved tuning performance across the frequency range 2-30MHz .

Effective immediately, no further orders can be accepted for the 10 metre GMDSS High power whip 2-30 MHz - 500W/1KW (P/N BC91708). Please contact Barrett Communications for more information.
